European Training in Basic Laparoscopic Urological Skills (E-BLUS)

HOT 06

**Location:** Session Room

**Aims and objectives of this presentation**

The European training in basic laparoscopic urological skills (E-BLUS) is a programme offered to residents and urologists who want to improve the basic skills in laparoscopy. It is a unique opportunity to train with international experts in laparoscopy. The E-BLUS programme includes:

- Hands-on Training (HOT) courses of different levels carried out under the guidance of experienced tutors
- A set of training-box exercises developed and validated by the Dutch project Training in Urology (TiU) to train basic skills needed in urological laparoscopy
- E-BLUS examination and certification
- An online theoretical course
